Bridges over Beach Thorofare, Rainbow Channel, Elbow Thorofare, and Ship Channel, replacement; Somers Point Circle elimination

This project provides for the replacement of four structurally deficient and geometrically obsolete bridges, including two movable bridges, which form a causeway linking the beach resort of Ocean City with the mainland at Somers Point. The causeway will be replaced with a continuous bridge containing high-level fixed spans (i.e. 55 foot vertical clearance) over the two main channels. The new bridge will have improved lane widths and full shoulders as well as a concrete median separating traffic. A wide sidewalk is planned to provide for both pedestrian and bicycle use. Recreational pull-off areas for fishing/pedestrian access are planned on Rainbow Island as well as the first island out of Ocean City. In addition, the project will provide for the elimination of the Somers Point Circle, including a circle cut-through, widening of Route 52 through the circle (two travel lanes in each direction with a center turning lane), and new signalization.
